

Libra Software GmbH is a pioneer in producing efficient software systems for controlling and investment management. Our development sites are located in Mannheim (Germany) and Sofia (Bulgaria), where teams of developers, business analysts, and customer consultants are working on the continuous advancement of our web applications.

For our office in **Sofia, Bulgaria**, we are looking for a

Software Developer - Java EE (m/f)

Main tasks:

As part of the development team, you will be trained and responsible for building Java-based web applications within the **Libra** Framework and will be involved in all aspects of the process:

- ⦿ **From** design and creation of the data model
- ⦿ **Via** design of the structure, components and decisions about how they operate together
- ⦿ **To** implementation of the application

The applications you build will be then integrated within the **Libra** System to be used by our corporate clients (amidst Praktiker, RWE, and Brita) across Europe.

Your profile:

- ⦿ A creative, dedicated, and highly motivated professional with interests in the IT area
- ⦿ A team player who enjoys creating well functioning and sophisticated applications
- ⦿ Having a desire to continuously learn and develop in the field of software technology
- ⦿ Communicative and flexible, as well as daring to think in terms of complex abstractions
- ⦿ Highly organized, with an eye for detail

With qualifications:

- ⦿ You (will) have a degree in Computer Science, Informatics, Software Engineering or similar
- ⦿ You have experience in programming with core **Java** technologies
- ⦿ Able to freely operate with the Object-oriented paradigm
- ⦿ Able to freely communicate in English

Advantageous:

- ⦿ Familiar with multitier architectures, amidst Java EE, EJB, SQL, and JavaScript
- ⦿ Certificates and/or trainings in those or similar fields
- ⦿ Experienced in Java web technologies

What we offer at Libra is:

- ⦿ Friendly and knowledge-driven environment in which you constantly learn, grow, and improve
- ⦿ Ability to make a change for customers and consumers at global level
- ⦿ Insight and knowledge in the field of enterprise software development
- ⦿ A strong and motivated team of colleagues to support you in your daily tasks
- ⦿ Competitive remuneration

Take the next step!
